

resume

My name is Daniel Filatov, a 21-year-old highly motivated and background as a combat soldier and commander in the IDF Givati Brigade. During my military service, I developed strong leadership, teamwork, and decision-making skills under pressure—qualities that continue to guide me in both professional and personal environments

I hold a full matriculation diploma from Ort Yuvalai Ariel High School, with advanced studies in Physics and Mechatronics. My academic background reflects a strong technical foundation and analytical mindset, which I am eager to continue developing in both engineering and technology fields

I have a deep passion for learning, growth, and excellence. Whether it's acquiring new knowledge, mastering new skills, or contributing to a team project, I strive to perform at the highest level. I enjoy working collaboratively, but I am equally comfortable taking initiative and leading when necessary

Outside of work and studies, I am drawn to the sea and nature, which give me energy and clarity. I am also dedicated to giving back to the community through volunteer work, and I believe that helping others is both a responsibility and a source of personal fulfillment

I am currently seeking opportunities that will allow me to grow professionally, contribute meaningfully, and be part of a team that values integrity, dedication, and innovation
